

Challenges in Mechanical Ventilation in a patient with Liver disease- Pre conference symposium

Venue: ILBS

Date: 24th January 2017

Course Coordinator- Vandana Saluja, Hemant Kumar

Target audience- Anesthetists, Intensivists, hepatologists, gastroenterologist, nurses

TITLE	SPEAKER	TIME
Welcome/ course overview	Vandana Saluja	8.00-8.10
SESSION 1 (8.10am -10.45am) 25 mins plus 5mins		
Understanding mechanical ventilation- Does the mechanics change in Cirrhotics	Amit Singhal	8.10-8.40
Diagnosis and management of acute respiratory failure in Cirrhotics	G C Khilnani	8.40-9.10
Appropriate use of sedation and muscle relaxants - Do we need to be more cautious in Cirrhotics	Rashmi Ramachandran	9.10-9.40
Pre & post Liver transplantation – ICU Management. Hepatic Hydrothorax PPH HPS	Hemant Kumar Ashok Chowdhury Amrish Sawhney	9.40-9.55 (12min) 9.55-10.10 (12min) 10.10-10.25 (12min)
Q and A		10.25-10.45
Tea break 10.45-11.15		
Session 2 (11.30 am-01.00pm) 25 mins plus 5 mins		
Reading an Arterial blood gas	JC Suri	11.30-12.00
Basic and difficult airway management- red flags in a cirrhotics	Debashish Dhar	12.00-12.30
Understanding ventilator waveforms – changes and challenges in ventilating Cirrhotics	Randeep Guleria	12.30-1.00
Lunch 1.00-2.00		
SESSION 3 (2.00pm-3.20pm) 17 mins plus 3 mins		
Ventilatory strategies in ARDS and setting PEEP- why are cirrhotics more susceptible to lung consolidation	Arindam Kar	2.00-2.20
ECMO	Nitin Jain	2.20- 2.40
NIV in ICU- its use in patients of liver diseases.	Jayashree Sood	2.40-3.00
Difficult weaning and Tracheostomy in cirrhotics	Rajesh Kumar Pande	3.00-3.20
Demonstration of equipment in 3 batches- 20 mins each (3.20-4.20pm)		
Basic Ventilation and NIV	Sumit Kalra	
Airway and tracheostomy	Rajesh Kumar Pande	
ECMO	Nitin Jain	
Kindly join us for the Inaugural function and Antibiotic Symposium in the main Auditorium
